

José Conde is a Chemical Engineer from the University of Barcelona (UB) and holds a Professional Doctorate in Engineering (PDEng) from the University of Twente (the Netherlands). He serves as the Head of Business Creation at the Bosch i Gimpera Foundation (FBG-UB), the University of Barcelona's Technology Transfer Office (TTO). With over 15 years of experience in technology transfer, José's work spans areas such as technology protection, valorization, licensing, as well as the design and implementation of Proof of Concept programs. Since 2013, he has played a key role in the creation of technology-based companies derived from UB's research (+20), assisting entrepreneurs during the incubation phase and providing ongoing support to the UB's spin-off companies.
