

---CRG INNOVATORS DAY 2025---

We are proud to launch the inaugural CRG Innovators Day, a new annual event recognizing the entrepreneurial spirit and translational efforts of CRG's research community. This event will celebrate those that push, beyond their busy research lives, advanced and development technologies toward valuable products, services and therapies that can help society and industry meet the needs of today. Here we will present the winners of the 2025 editions of the MenTT4Inn and CRG Innovator Award managed by TBDO as well as the following:

➤ How to Tread the Path of an Innovator (Panel Discussion)

Luis Serrano
CRG Director and Co-
Founder of Pulmobiotics
and Orikine Bio

Clara Campàs
Co-Founder and Managing
Partner at Asabys

Bernhard Päetzold
CSO and Co-Founder at S-
BioMedic

The panel will discuss key insights for building commercial opportunities from scientific innovations.

➤ Young Innovator Talk – MenTT4Inn 2023 Grantee

Miquel Anglada-Girotto
Postdoc Researcher in
Probabilistic Machine
Learning and Genomics
Group @ CRG

Miquel will describe the Spotter tool for identifying targets for splice-switching oligos, a project that received previous support from the MenTT4Inn programme
