Learn About Curie.Bio's

Hands-On Approach To Investing In Therapeutic Ideas

Curie.Bio is a \$1.25B global venture capital firm that partners with founders to discover and develop important new medicines. Curie.Bio invests in existing companies, creates focused spinouts, and builds companies from scratch. With a 100+ person team of experienced drug hunters and operators, Curie.Bio combines capital with hands-on drug discovery and development support to ensure companies have the best chance of succeeding.
