HOW TO INCLUDE CITIZEN SCIENCE IN RESEARCH PROJECT PROPOSALS?

Apply now!

Involving citizens in health research may benefit research in terms of new data sources, but also help empower communities and improve community health.

Join this workshop to map key stakeholders for your research project and new ways of involving communities. You will also discover new national and international funding landscapes for this type of methodologies.

Instructor: Gitte Kragh & Kristian H. Nielsen

Date: 8th May 2023

Hour: 14:00-16:00

Location: Charles Darwin (PRBB square)

Level: Intermediate
